**HYDRAULIC HOSE BREAKDOWN,
REPAIR & SERVICE PROFESSIONALS**

1800 HOSE VAN

HYDRAULIC & INDUSTRIAL HOSE SERVICES

WHO WE ARE

1800 HOSE VAN is a National Mobile Service and Repair network specialising in the service, repair and maintenance of hydraulic hoses.

On-call 24 hours a day, 365 days of the year, **1800 HOSE VAN** operate fully-equipped service vans which are managed by highly-skilled technicians using the very best in hydraulic products from Gates, readily acknowledged as the industry's best for performance reliability and innovation.

PROUD INDUSTRIAL HERITAGE

As a division of the Inenco Group – Australia's largest industrial products and services network – and a unique Gates partner, **1800 HOSE VAN** will ensure prompt and efficient service. Our skilled technicians are focused on minimising the downtime of your equipment.

With over 70 years' experience in servicing Australian industry and a team of dedicated local operators on-call, you can be confident that you're in trusted hands.

HOW WE CAN HELP YOU

1800 HOSE VAN provides a broad suite of services designed to maximise the uptime and performance of your equipment. Our capabilities include:

- 24 hour emergency hydraulic hose repair service
- Hydraulic hose preventative maintenance
- New hydraulic Installation and modification including fully customised work covering hose, fittings and tubing assemblies

1800 HOSE VAN is the preferred supplier to many major OEM and end-users in some of the most demanding and critical industries across the country.

1800 HOSE VAN

HYDRAULIC & INDUSTRIAL HOSE SERVICES

IF IT'S HYDRAULIC, WE CAN FIX IT

Our operators have extensive experience across many industry sectors, the common theme being that downtime equals loss of productivity and revenue.

MINING

With national coverage and a strong presence in the resource-centric states, **1800 HOSE VAN** is well credentialed to support the mining sector. We understand that in the mining industry, equipment failure is not an option.

MARINE

Out on the water, safety is paramount. We work with the marine and fisheries industries to ensure engines, pumps and ancillary equipment is in the best condition prior to leaving the docks.

AGRICULTURE

When harvesting season comes the last thing that's needed is machinery downtime due to a faulty hose, **1800 HOSE VAN** can help look after your capital equipment investment and make sure that it's ready to perform when called upon at time critical periods.

CONSTRUCTION

On the construction site, equipment breakdowns can cause a ripple effect putting schedules into disarray. Through preventative maintenance we can help minimise this risk and if an unforeseen breakdown occurs, **1800 HOSE VAN** will be on site fast to undertake the necessary repairs.

TRANSPORTATION

With full national coverage around the clock, our operators will get the wheels turning again whether by the side of a freeway or lonely country road.

OUR PROMISE TO YOU

We commit to providing our partners with the highest levels of service in the industry. We value your business and will prove this to you in every job we do.

PRODUCTIVITY

Maximise uptime and equipment service life with the world's leading products, fitted by the nation's best technicians to the highest industry standards.

EXPERTISE

More than just a mobile hydraulic hose repair service, we engage highly skilled technicians who are equipped with full mobile workshops and who have the expertise to get the job done right the first time.

QUALITY

We only use Gates Hydraulic and Industrial hoses and fittings, which are acknowledged globally as the industry's leading products for performance and innovation and are backed by the world's only lifetime warranty*.

RELIABILITY

You can rely on **1800 HOSE VAN** to rapidly respond to your call, 24 hours a day, seven days a week to keep your business running.

* Conditions apply.

coverage across
all Australian
states and
territories

**EXCLUSIVE USE
OF HIGH QUALITY
GATES PRODUCTS**

EXTENSIVE STOCK HOLDING

for superior parts availability

1800 HOSE VAN

HYDRAULIC & INDUSTRIAL HOSE SERVICES

OUR EXPERTISE – MORE THAN JUST A BREAKDOWN SERVICE

While many **1800 HOSE VAN** customers only call on us during a time of urgent need, namely to diagnose and repair an unforeseen hydraulic system failure, our technicians are also qualified to undertake a range of other projects.

Business savvy clients who want to minimise the risk of equipment downtime, engage **1800 HOSE VAN** to undertake planned preventative maintenance schedules for them. This approach reduces the likelihood of hydraulic hose failure when the equipment is in use, typically during a busy work cycle.

Our technicians are also regularly called upon to assist OEMs with new hydraulic installations or modifications on all manner of plant and equipment. Among our OEM client base are leading brands.

GATES HOSE & FITTINGS - NOTHING BUT THE BEST

Gates is an acknowledged global leader and innovator in the design and manufacture of quality hydraulic hose and fittings.

1800 HOSE VAN use Gates products extensively as we believe that the Gates product range provides substantial advantages for both operators and users.

The Gates product line-up covers all types of industry from mining to general and industrial applications – if a Gates product is not available for the application, we will recommend a high quality alternative from other leading suppliers.

1800 HOSE VAN is extremely particular about the technicians we appoint to become our partners as licenced business operators.

Our operators typically have extensive experience in the hydraulic hose industry and a great many also boast mechanical industry qualifications. This ensures that when you contact our company, we'll provide you with the best person for the job, not an operator on 'L' plates.

A strict criteria needs to be met to become a **1800 HOSE VAN** technician* and we build on their existing knowledge by providing them with on-going training to keep abreast of all the latest developments in the industry.

* Minimum Certificate II in Engineering (Fluid Power) required.

MEGASYS CONSTANT PRESSURE HOSES

Featuring:

- Simplified hose selection with constant pressure ratings
- Braid and spiral constructions meeting and exceeding SAE, EN and ISO hose standards
- Smaller bend radii for easier routing and fewer adapters
- Higher impulse cycles for longer life
- Reduced total cost of ownership

MEGACRIMP COUPLINGS

Featuring:

- Patented 'C' insert for robust, leak-free assemblies
- One coupling for all braid hoses resulting in less inventory and fewer assembly errors
- TuffCoat™ plating for five times better corrosion resistance
- No-Skive design

GLOSPIRAL COUPLINGS

Featuring:

- One-stem design for all four and six spiral wire hoses
- TuffCoat™ plating for five times better corrosion resistance
- No-Skive design

FULL-TORQUE NUT TECHNOLOGY

Featuring:

- Stronger and more durable performance compared to traditional staked-nut fittings
- Prevents cracked nuts or seats from over-tightening
